

PRESS RELEASE

|| Sunesys to Offer High Bandwidth Managed Fiber Connections to Philadelphia Technology Park ||

August 06, 2012 (Warrington, PA) – Sunesys, LLC announced today it will begin offering lit transport services from across the Philadelphia region to the Philadelphia Technology Park.

“Since we installed our connection to the Philadelphia Technology Park earlier this year, we have seen an increased demand for lit services into the facility. With the Sunesys model of end-to-end network dedication, our lit service offering provides a unique solution for customers looking for the highest levels of security, reliability and simplicity.” said Alan Katz, Sr. VP of Business Development for Sunesys.

Sunesys will initially offer 1Gbps, 10Gbps, 40Gbps, and 100 Gbps layer 2 connections over dedicated fiber strands in addition to the dark fiber services already provided. Larry Coleman, Sunesys President on the connections, “Offering lit services is really nothing new for us as we regularly offer a managed product for our customers’ WANs. This is just the first instance for us to offer a lit landing point in a regional data center and we look to expand on this model moving forward.”

Corey Blanton, President of Philadelphia Technology Park added, “With the growing needs of our colocation data center customers, there is great appeal for a robust, reliable network with seamless and direct integration to various internet and other service providers. The cost benefits and security of a Sunesys private managed solution offers Philadelphia Technology Park the ability to meet their customer demands to the fullest degree.”

The Philadelphia Technology Park at the Navy Yard in Philadelphia is connected to Sunesys’ Northeast regional network which has over 3,300 miles of fiber in Eastern Pennsylvania, New Jersey, Maryland, and Delaware.

About Sunesys, LLC

Sunesys is a dynamic, forward-thinking telecommunications services and dark fiber provider. We bring effective and cost-efficient solutions to a variety of reputable institutions from coast-to-coast, building infrastructure and connecting your network solution needs and goals. Sunesys is a subsidiary of Quanta Services, Inc. (NYSE: PWR), a leading specialized contracting services company, delivering infrastructure network solutions for the electric power, natural gas and pipeline, and telecommunications industries.

About Philadelphia Technology Park

Philadelphia Technology Park is a state-of-the-art, 25,700 square foot colocation data center that serves to house mission critical data for its customers. The center was designed to meet the high density power, cooling and bandwidth requirements of the Uptime Institute. Located within the Philadelphia Navy Yard, it is the only purpose-built, single-use data center facility of its kind in Southeastern Pennsylvania, South Jersey and Wilmington market. Over \$25 million have been invested into Philadelphia Technology Park.

Philadelphia Technology Park is owned by Enterprise Technology Parks, LLC and is a sister corporation to Baltimore Technology Park, a 30,000 square foot colocation data center located in Baltimore, Maryland. Philadelphia Technology Park utilizes the same experienced team that has made its Baltimore counterpart the premier data center of the greater Baltimore/northern Washington, D.C. area.

Philadelphia Technology Park is located at 4775 League Island Blvd., Philadelphia, PA, 19112. Inquiries can be made directly to Corey Blanton at 215-218-1980 / sales@philadelphiatechnologypark.com. www.philadelphiatechnologypark.com
